**CIRCULAR NO.26**

**Sub: Scrutiny and analysis of tenders-reg.**

....

During Vigilance scrutiny and inspection of a tender awarded, it was seen that the Work Certificate in the case was forged/false document. The tender was awarded and finalized on the basis of a forged/false Work Certificate.

It is, therefore, advised that the authenticity of the work/experience certificate should be ensured before awarding of the contract to the bidder.

All HODs are advised to take serious note of the above and ensure the necessary measures in all the future tender process.
